Subject: RE: Aldicarb: collaborative document posted for PCTn

Good morning,

I decided to do a little work on the aldicarb/TX&FL citrus numbers and graphs and here is what I have done so far, as a test run.

Deliberative Process / Ex. 5

Do you think this graph may be too busy? What don't you like about it? Please be candid in your response. Thanks.

Dexter

Subject: Aldicarb: collaborative document posted for PCTn

Hi BEAD team,

With the quick turn-around (next two to three weeks, including PRP) for the PCTn of aldicarb, Jeana, Lindsey, and I wanted to start collaborating on the document immediately. I found a template for documents submitted to RD and have started to fill it in. I have posted the document to Sharepoint, and you can find it [here](#).

Please note that the PRP date has been automatically formatted to update, just like the date in the document's header.

Thanks,

Rebecca
